DETAILED ACTION

Papers Received

Receipt is acknowledged of the applicant's response, received on 07 November 2002.

Double Patenting

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of Claims 39-53 under the judicially created doctrine of obviousness-type double patenting is maintained.

Claim Rejections - 35 USC § 103

The rejection of Claims 39-53 under 35 U.S.C. 103 over Jao *et al.* is maintained.

Response to Arguments

Applicant's arguments filed 07 November 2002 have been fully considered but they are not persuasive. It is the position of the examiner that the drug release profiles disclosed by the prior art demonstrates a sufficiently uniform drug release that one of ordinary skill in the art can discover a dosage form that does not deviate more than 5% from a mean release rate over a sustained period of time through routine experimentation. Furthermore, the applicant has not shown a patentable distinction of the particle size claim limitations in the instant claims that would make such limitations critical in the formulation of a dosage form exhibiting uniform drug

release that the examiner believes is already disclosed in the prior art. As such, the applicant's claimed invention of the prior art lies within the scope of the disclosure prior art and the rejection of the instant claims is deemed proper.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
